Business in Wall Street Less Active with Fluctuations Unimportant.

Bears Attempted a Raid Late in the Day on News of the Foster Failure-Indianapolis Cereals Steady, Tending to Stronger.

THE BOND MARKET.

Railway Issues Were Irregular on Sales of \$747,000. At New York, vesterday, money on call was easy at 2@24 per cent, the last loan

being made at 2; closing offered at 2. Prime mercantile paper, 6@8 per cent. Sterling exchange wasstrong, with actual business in bankers' bills at \$4.85 12 @4.86 for sixty days and \$4.891/2 for demand.

The New York stock market, yesterday, was far less active than on Thursday. The course of prices was irregular, but fluctuations, save in a few instances, were quite unimportant. The market opened lower in sympathy with London, but a rally ensued, and later, under a fairly brisk demand, prices generally went above Thursday night's finals. The failure of the Foster Banking Company, of Fostoria, O., of which ex-Secretary Foster was president, and the engagement of \$2,500,000 gold for export to Europe induced the bears to make a raid on the market during the nfterneon. The leading shares, like the grangers, Atchison, New York Central and Lake Shore closed with merely fractional

weak in tone. Railway bonds were irregular. The sales were \$747,000. Government bonds were firm and State bonds were dull. Closing quotations were:

INDIANAPOLIS MARKETS.

Good Volume of Business in All Lines-Cereals Steady to Strong.

The bad weather yesterday had no appre ciable effect on trade. Dry-goods and grocery dealers report an active movement. Dry-goods men have been obliged to work their forces to a late hour in the night billing goods for shipment to customers, and they welcome the slackening off incidental to the close of the week as giving them the much needed opportunity to catch up. There is no change to note in quotations in this department, Grocers had all the business they could attend to. There is an advance of 4c on all grades of coffees, while on all other staples prices are strong. Fruits and vegetables are in good supply, with a correspondingly good demand, and quotations were practically without change. Poultry, eggs and butter were all steady and quiet. Wool dealers report that growers are disposing of their clips very premptly, which dealers regard as the wiser course. Very few are suffering stocks to accumulate. pwing to the uncertainty as to tariff legislation. There are no Eastern buyers in this market. Prices still hold steady at quotations corrent for the past month. On'Change there was little interest shown

in cereals. Wheat was firm at prices prevailing on Thursday. Corn showed more strength, with a slight advance. Oats were steady. Rye is scarce and higher. HIGH-WATER MARK IN PORK

Jump of \$2 in About Five Minutes, the Price Reaching \$23 a Barrel.

The Product Believed to Be Securely Cornered and None for Sale for hove or Money in the Chicago Pit Yesterday.

Wheat Slumped and Talk of a 65-Cent Quo-

TEADING AT CHICAGO,

tation Induiged In. CHICAGO, May 26. - September pork opened to-day at \$20.85. It was two hours slowly getting up 15c to \$21. Then, without a particle of warning, it was less than five minutes getting to \$21-a phenomenal jump of \$2 a barrel. A selling of about one thousand barrels at that figure stopped the runaway market, and in fifteen minutes the price was back to \$22.30. The close was at \$22.35 or \$1.50 up from the opening. This remark able action is but a flash in the deal which has quietly tied up all the contract pork in sight, and will release nothing except at great punishment to the shorts. The manipulation, which is credited to the Cudahys, Charley Wright, and some say N. K. Fairbanks, has been the scarecrow in the provision trade for weeks. The country got frightened out long ago. The scalpers have been filling the chairs, but fighting shy of the pit ever since May 1. To venture in on either the buying or the selling side has been to get nipped sooner or later. Prices have been so fancy that the temptation was great to sell short and place stop loss orders \$1 or more above the market. Those who were led into temptation were wild to be delivered to-day when shorts bid for pork. No one without it dare sell it. Those with the pork, the clique, would not sell it, Prices went 25 to 500 at a jump between trades. One stop order placed at \$21.80 was filled at \$23 and this was but a sample. Only small lots were wanted and the trade was not heavy. Steever sold 750 barrels for the clique and eased the pressure. The worth. It was said that in ten years the market had not gone up so rapidly on so little buying. There was nothing doing in other hog products. Lard and ribs closed nominally .2240 higher than last night. Conditions seemed to strongly favor the selling side of the wheat market and much of the local talent was engaged in the effort

to force a decline. Brosseau, Poole, Lester, Murry, Nelson and Congdon sold generously from the start and when a downward movement was started Charles Wright's brokers joined vigorously in the assault and during the first hour a break of lc from yesterday's close was made, Cables were weaker and failed to bring any crop calamity news. Domestic markets were all on the down grade while primary receipts were heavy, local arrivals being beyond expectations, generous rains reported in the dry! districts in the Southwest and generally magnificent wheat weather gave the bears a whole magazine full of ammunition, which they used for a time with good effect. Wright talked 65c wheat. There was also a good deal of apprehension growing out of the uncertainties of the monetary situation. The Australian failare and the assignment of ex-Secretary Foster increased the apprehension, but active covering by Wright on the decline, and the excitement in pork sent wheat up during the last hour. The opening was about the same as yesterday's closing to 'se lower, and with some slight fluctuations, prices declined ic for July and %e for September, then rallied &c, eased off somewhat and closing was about he lower for July and %c for September than yesterday. In corn brokers supposed to be acting in the interest of large local longs sold freely, and, wheat declining, the price worked down %c, but rallied 40 later, owing to the strength in provisions, ruled easier, and at the close had lost 4 @ 4c. The liberal receipts and the still larger estimate for to-morrow had a weakening tendency. Oatsearly were a shade better, advancing 1804c, but later declined 120 se with

wheat and corn, and the closing was quiet at about inside prices. Vessel room was in fair demand at 140 1%c for wheat and 1%c for corn to Buffalo. Estimated receipts for to-morrow are: Wheat, 180 cars; corn, 590 cars; oats, 376 cars; bogs, 8,000. The leading futures

Circular Issued by the Executive Board for Information of Veterans.

Mr. William Fortune, executive director of the citizens' executive board, has issued the following circular to the Grand Army posts throughout the country, giving information relative to the accommodations provided for them during encampment week, and the charges therefor:

The indications at this time are that the attendance at the Twenty-seventh National Encampment, G. A. R., to be held in Indianapolis in the first week in September, will be much the largest in the history of the organization. The central point at which the encampment will be held will enable a greater number of the veterans to attend at less cost than ever before. The world's fair at Chicago is an attraction that thousands will combine with the encampment, as the railroad rates for the latter will probably be the lowest that will be offered this year. A definite announcement of the railroad

rate for the encampment will not be made until a few weeks later, as there are important reasons for delaying it for a time. In the meantime we have the assurance that it will be as low as has ever been granted, and this we believe may be relied upon by all who are thinking of attending the encampment. the entertainment of the veterans. The

list of special attractions embraces every-

thing that has been offered in other cities,

in addition to which there will be many

new features. These cannot be enumerated here. Persons desiring accommodations in hotels or boarding houses should make their arrangements without delay. We are prepared to put applicants for such accommodations in the way of getting what they want, and can, at this time, give better attention to them than may be possible a few weeks later. Hotel rates range from \$1.50 to \$1 per day for both lodging and meals. The charges of the boarding houses are: For lodging and meals....\$1.00 to \$2.00 per day

For lodging alone...... 50 to 1.25 Meals only...... 25 to 50 each. Applications for hotel or boarding house accommodations should state for whom they are desired, and at about what price they are wanted. We will then put the applicant in communication with persons with whom the desired arrangements can

be made. Halls can be secured for a limited number of posts desiring them for exclusive use, at a charge of from \$10 to \$20 per day. All who desire free sleeping quarters will be provided for in barracks somewhat simllar in construction to those used in Washington, except that wire cots will be furnished instead of canvas bunks. Posts of each State will be assigned to the same place as far as possible. l'ost commanders are requested to im-

mediately ascertain what number of their comrades will want free quarters, and report on the accompanying blank, giving. at the same time, the other information iudicated thereon.

Within the next few days arrangements for free quarters will be fully determined on, and, to enable us to adequately provide for all, the information asked for in the blank herewith sent you should be reported with as little delay as possible.

Monetary Situation Unchanged and General Depression Is Reported.

Stocks Have Fallen Off from the Recovery of Last Week and Exports Are Still \$6,000,000 in Excess of Imports This Month.

NEW YORK, May 26 .- R. G. Dun & Co.'s weekly review of trade says: In two ways there has been quite a general improvement during the past week. Better weather throughout most of the country has stimulated retail trade, and the large distribution of goods has made the jobbing trade more active. The monetary conditions do not seem to have changed materially. The large demand for rediscounts and advances by Western and Southern banks, though considerably abated, has been greater than Eastern banks could wholly meet. There is no definite improvement in financial affairs abroad, and the prospect of the continued outgo of gold for some time to come has not altered. Speculative markets show comparatively little activity. Stocks have fallen off to some exweek, the average being about \$1 per share lower than a week ago. Wheat and corn are both at the same price as a week ago, although Western receipts of wheat in four days bave been 1,902,108 bushels, and Atlantic exports 1,086,597 bushels. Corn receipts bave been very large, with insignificant exports. Mess pork is 25c higher, but hog other products are a shade lower. Coffee advanced & @1c. and oil declined a cent. A natural decline is seen in dairy products and potatoes. Cotton is also se lower, although the receipts have been smaller and the exports larger than for the same week last year, but the enormous stocks in sight are not diminishing more rapidly than is usual at this season. Boston zeports demand for wool moderate and prices the lowest of the season. At Philadelphia pig iron is firmer and manufactured in greater demand, owing to expected closing of works in the summer. The outlook for pig iron is better at Pittsburg, and some finished products are in better demand, but prices are very low. At Cincinnati stringency lessens. At Cleveland rolled products are in large demand, but prices are weak and money close. Indianapolis reports money tight, owing to lack of confidence. At Detroit prospects are less bright than last year. Chicago reports improvement, though collections are still slow and bank accommodations sparing. Liquida-

tion continues. Dress goods are dull, but there is closes discrimination than usual in favor of choice styles. Cottons are stronger and print cloths a sixteenth higher. Wool sales are small, prices favoring buyers, Shipments of shoes continue to exceed last year's. In the iron market new freight from the South affects prices largely at points not on the seaboard, but bar iron is at the lowest point on record. Plates are duli and competition for all manufactured products are exceedingly keen, with prices quoted in some cases below actual cost almost at works. Imports are still large; for three weeks in May exceeding last year's by hearly \$6,000,000, but exports have some-what increased, and for three weeks snow

a slight gain. The business failures for the last seven days number 273, as compared with 261 last week. For the corresponding week of last year the figures were 198.

One of Eugene Field's "Flats."

Minneapolis Tribune. Mr. Eugene Field's entertaining and in structive column of "Sharps and Flats" in yesterday's Chicago Record closed with the comforting assurance that no "headache or bad taste in the mouth will follow if Blank's pills are used." Mr. Field has always been a thoughtful and considerate Liberal arrangements are being made for | man, brim full and bubbling over with sympathy for suffering humanity.
